SUBJECT INDEX

Abbreviations, what price brevity (Letter) 497
A-beta-lipoproteinemia
(Acanthocytosis) (Letter) 669
Metabolic, endocrine, and electron-microscopic investigations 91
ABO incompatibility, hemolytic disease 650
Acanthocytosis, tocopherol therapy (Letter) 669
Accident prevention, safety packaging to protect children 613
Accidents
Book of, 151, 324, 482, 654, 839, 978
Cardiac tamponade from swallowed safety pin 832
Low voltage burns 831
Safety measures and poison prevention (Letter) 673
Acid-fast infections, *M. Aquae* meningitis 974
Acne
And vaccintion 815
Treatment with antibiotics (Committee Report) 663
Acrodynia, mercury poisoning 639
ACTH syndrome, ectopic, and adrenals (Letter) 329
Acute and chronic disease in the U.S. (Historical Note) 90
Adipose tissue, lipid concentration and composition in human fetus 540
Adolescents, body image changes in diabetics 123
Adoption
And sense of identity (Letter) 490
Black children 325
For "hard to place" children (Letter) 489
Adrenal hyperplasia, congenital, partial 3β-hydroxysteroid dehydrogenase deficiency, familial 756
Adrenals, in ectopic ACTH syndrome (Letter) 329
Advertising, in PEDIATRICS (Letter) 489
Aerosol deposition, in mist tent therapy 605
Agglutinins, pseudomonas in cystic fibrosis 973
Airway obstruction, cause of sudden death 281
Alaskan natives, health care (Committee Report) 657
Allergist, patient, family, and physician (Letter) 339
Allergy
And urinary infection (Letter) 166, 994
Impressions from 37 years 930
Allied health workers (Letter) 327, 995
AMERICAN ACADEMY OF PEDIATRICS
Acceptance of the Presidency 986
Adoption of Black Children (Committee Statement) 325
Correspondence Re: Iron Fortified Formulas (Letters) 152, 158
Drug Abuse Legislation for the 1970's (Committee Statement) 990
Hazards of Laundry Products in Newborn Nursery (Committee Statement) 988
Indian Health (Progress Report) 657
President's Address 1971 984
Treatment of Acne with Antibiotics (Committee Report) 663
Use and Abuse of Vitamin A (Committee Statement) 655
Vitamin K Supplementation for Infants Receiving Milk Substitute Formulas, and Those with Fat Malabsorption (Committee Statement) 483
American Board of Pediatrics (Letter) 671
Amino acid metabolism, familial hyperprolinemia 225
Amino acids, branched chain ketoaciduria 795
Aminophylline, in status asthmaticus therapy 642
Amphetamines (Letters) 496
Ampicillin therapy, for *H. influenzae* meningitis 411
Ampicillinuria and ampicillin crystalluria 636
Antibiotics, to treat acne (Committee Report) 663
Antibodies
Effect of repeated mumps skin tests 445
Local, response to respiratory syncytial virus vaccine 745
Pseudomonas agglutinins in cystic fibrosis 973
Serum, biologic significance of secretory (A immunoglobulins) 715
Antigen, Australia (hepatitis-associated), sex differences in carrier states 907
Antimicrobial agents, otitis media therapy 417
Aplastic crises, in sickle cell disease 629
Arrythmia therapy, treatment of ventricular tachycardia 110
Arterial pressure, measurement with Doppler ultrasonic technique 788
Arthritis, complication of varicella infection 827
Artificial sweeteners, lack of evidence in relation to fetal malformations (Letter) 337

Ornithine transcarbamylase mutant enzyme, as cause of hyperammonemia 595
Osmolarity, disturbance from intravenous alimentation 955
Osteomyelitis, pseudomonas, puncture wounds of feet (Letter) 164, 672
Osteoporosis, in small premature infants 883
Otitis media, erythromycin therapy 417
Oxygen administration, in baby warmer, complications (Letter) 333
Oxygen affinity of fetal blood, experiments and results in normal infants 857
Oxygen-hemoglobin equilibrium curve, causes and significance of alterations (Commentary) 853
Oxygen
Monitoring
Automatic system for newborn infants 315
In premature infants, retrolental fibroplasia Commentary) 509
Oxygen transport
Alterations of oxygen-hemoglobin equilibrium curve related to 2-3 DPG (Commentary) 853
Physiology 469

Pancreas, annular, as cause of duodenal obstruction in siblings 148
Pancreatectomy, for islet-cell adenoma in newborn 232
Parenteral alimentation, biochemical aspects of intravenous alimentation 955
Parainfluenza virus, *in vitro* and direct clinical identification by immunofluorescence 73
Paralysis, brachial plexus 18
Parents
Education about PKU 216
Expectations in toilet training 451
Of child with cyanotic heart disease, psychiatric study 450
Relationship with physician and allergist (Letter) 339
Parisian life, evils of (Historical Note) 231
Parotitis, *see also* Mumps
Pediatric certification (Letter) 671
Pediatric Perceptions
Allergy: Some Impressions Gained Over a 37-year Period 930
Pediatricians
And allied health workers (Letter) 327, 995
In mental health and child guidance clinics (Letter) 160
Patient family, physician, and allergist (Letter) 339
Pediatrics, ambulatory, medical care for preschool children 426
Penicillin administration, as clue to comprehensive and continuous care 766
Penicillin and throat cultures, in rheumatic fever control (Letter) 842
Penicillin as therapy for animal skin infection simulating human impetigo 83
Penicillamine, in CNS mercury poisoning 639
Penis tourniquet syndrome (Letter) 765
Pentachlorophenol (PCP), hazard of laundry products in newborn nursery (Committee Statement) 988
Percutaneous venous cannulation, catheter insertion without "cut-down" 896
Pericardium scans, use and dose 802
Periosteal new bone, in disease of small prematures 883
Personality, of XYY infant 583
Phagocytosis, failure and clinical findings in chronic granulomatous disease 730
Pharmacological and biological preparations, expiration dates (Letter) 668
Phenobarbitone prophylaxis, and therapy for neonatal hyperbilirubinemia 372
Phenobarbitone therapy, and bromsulphalein clearance in neonate 556
Phenylalanine levels, maternal, relation to mental retardation 401
Phenylketonuria, parent education 216
Phospholipids, in human fetal tissue 540

Phototherapy, caution in use 969
Physiology for Pediatricians, hypoxia in newborn 469
Pica, poison prevention (Letter) 490
Pituitary, fetal, as source of growth hormone 534
Plasma disappearance curves, to determine renal function 377
Plethysmograph
And N_2O to measure pulmonary blood flow 207
Body, tests of pulmonary function, in asthma and cystic fibrosis 64
Pleurodynia and herpangina, with *Herpes simplex* virus 305
Poison control centers, suicide attempts 914
Poisoning
Accidental, safety measures (Letter) 763
Imipramine ECG changes 777
Lead (Commentary) 349
Mercury, treated with penicillamine 639
Methadone (Commentary) 294
Safety packaging to protect children 613
Poliomyelitis
From vaccine in child with thymic abnormality 923
Vaccination in developing countries (Letter) 667
Polio vaccine, trivalent oral (Letter) 494
Polycistic kidneys, in Meckel syndrome 237
Population studies, isolated, epidemiology of disease (Commentary) 3
Poverty and race, relation to neonatal mortality 902
Pregnancy, complications, and speech development 268
Premature infants
Development of systemic bone disease resembling rickets and scurvy 883
Dilemma of retrolental fibroplasia (Commentary) 509
Steroids in treatment of hyaline membrane disease (Letter) 841
Transient lactose intolerance 816
Prematurity and speech development 268
Prenatal care, influence on serious illness in low birth weight infants 368
Preschool children, medical care 426
Procainamide, in treatment of ventricular tachycardia in infancy 110
Proline, hyperprolinemia, isolated inborn error of metabolism 225
Prophylaxis, benzathine penicillin for experimental skin infection simulating impetigo 83
Pseudohermaphroditism, male, partial 3 β-HSD deficiency in congenital adrenal hyperplasia 756
Pseudomonas agglutinins, in cystic fibrosis 973
Pseudomonas osteomyelitis (Letter) 164, 672
Psychiatry, parents of children with cyantoic congenital heart disease 450
Psychosomatic illness, and chronic hemodialysis 939
Psychosomatic medicine, body image in teenage diabetics 123
Pulmonary blood flow in newborn infants, new method of measurement 207
Pulmonary circulation, of newborn, effect of maternal hypoxia and hyperoxia 528
Pulmonary edema, transient, in methadone intoxication 294
Pulmonary function, in asthma and cystic fibrosis 64
Pulmonary, *see also* Lungs
Pyelonephritis, chronic, relation to vesicoureteral reflux 782
Pyloric stenosis, in father and sons 826

Quinacrine fluoromicroscopy, to identify human mitotic chromosomes 423

Race, and head circumference 494
Radionuclide examinations, indications and doses 802
Radiotherapy, for splenomegaly with hypersplenism in sickle cell anemia 457
Rectal bleeding, from intramural sigmoid hematoma 146
Rehabilitation
After head injury (Letter) 845
In chronic hemodialysis 939
Renal ectopia, crossed, and hypertension in infant 454
Renal failure, critically ill child 286
Renal function, external monitoring and plasma disappearance 377
Renal transplantation, relation of disseminated coccidioidomycosis and immunosuppressive therapy 144
Renal, *see also* Kidney
Respirator therapy, in newborn infants (Commentary) 175
Respiratory adaptation, grunting of normal neonate with late-clamped cord 865
Respiratory distress syndrome
Computerized blood gas analysis 5
Effect of intensive care 711
Idiopathic, blood analysis, automated (Commentary) 1
Idiopathic (Commentary) 175
Oxygen therapy and retrolental fibroplasia (Commentary) 509
Respiratory tract infection
Identification of parainfluenza virus 73
Relationship to asthma 930
Streptococcal throat cultures in diagnosis 573
Respiratory syncytial virus, low temperature adapted response to administration 745
Resuscitation, emergency, in laryngotracheal obstruction 281

Reticuloendothelial system, in chronic granulomatous disease 730
Retrolental fibroplasia, pediatrician's dilemma (Commentary) 509
Reye's syndrome, therapy (Letter) 162
Rheumatic fever
Evaluation of comprehensive and continuous care 766
Guidelines for use of throat cultures in diagnosis of streptococcal infection 573
Throat cultures and penicillin (Letter) 842
Rib excision, cervical, in thoracic outlet syndrome 462
Rose bengal I^{131}, in diagnosis of obstructive jaundice in infants with biliary atresia 966

Safety measures and accidental poisoning (Letter) 673
Safety packaging, evaluation 613
Scans, radionuclide, uses and doses for major organs 802
School behavior and mood-altering drugs (Letter) 496
School children, program to reduce group A streptococcal infection 566
School phobia 433
Schools, corporal punishment (Letter) 998
Sclerema neonatorum (Historical Note) 744
Scotochromogenic saprophytes, *Mycobacterium aquae* infection in hydrocephalus 974
Screening programs, for lead poisoning 464
Screening, speech 268
Sensory restriction, relation to delayed speech and physical immobilization 116
Separation anxiety, in school phobia 433
Sex differences, in carrier state of Australia (hepatitis-associated) antigen 907
Sex, fetal, intra-uterine diagnosis (Letter) 159
Sex ratios, in neonatal mortality 902
Shunts, right-to-left, cardiac malformation 469
Sickle cell anemia, radiotherapy for hypersplenism and splenomegaly 457
Sickle cell disease, diagnosis and treatment of crises 629
Sigmoid, rectal bleeding from intramural hematoma 146
Skeletal maturation, retarded, in a–beta–lipoproteinemia 91
Skin infection, experimental, in hamster simulating human impetigo 83
Skin, low voltage electrical burns 831
Skull fracture, diagnosis and treatment 129 (Correction) 400
Sleep
Growth hormone levels 946
(Historical Note) 565
Sleep-wake periods in newborn infants, and growth hormone 103
Small-for-dates infants, diagnosis 511
Smallpox vaccination complication, "acne vaccinatum" 815
Sociomedical factors, in serious illness of low birth weight infants 368
Speech, screening procedure in 3-year-olds 268
Sphygmomanometry, with Doppler ultrasound technique 788
Speech development, delayed, and physical immobilization 116
Spleen
Hyposplenia in cyanotic heart disease 277
In sickle cell disease crises 629
Neonatal rupture (following renal palpation) (Letter) 167
Spleen scans, use and dose 802
Splenomegaly with hypersplenism in sickle cell anemia, radiation therapy 457
Spray deodorants, hallucinogenic effects 322
Sprue, tropical, xylose excretion test 59
Statistics, estimation of congenital malformation rates (Letter) 492
Status asthmaticus, aminophylline 642
Steroids
In croup therapy (Letter) 493
In treatment of hyaline membrane disease (Letter) 841
See also Corticosteroids
Sterol esters, concentration and composition in human fetal tissue 540
Stillborn infants, male disadvantage in mortality 902
Streptococcal wound infection 458
Streptococci, identification in rheumatic fever control (Letter) 842
Streptococcus, Group A, program to reduce prevalence 566
Streptococcus infection, throat cultures in diagnosis 573
Sudden infant death syndrome, lack of viremia 79
Surfactant, effect of cortisol on fetal rabbit lung maturation 547
Suicide attempts, seen in poison control centers 914
Sweat, mucus and calcium in cystic fibrosis 695
Swift, Jonathan, and infant weights (Historical Note) 122
Syndromes, Cornelia de Lange 833
Tachycardia, irreversible atrial, in infantile xanthomatous cardiomyopathy 312
Technetium 99m, measurement of fluid deposition in mist tent therapy 605
Technetium pertechnetate, use and dose studies 802
Temperature taking (Letter) 493
Testicle, undescended, in cystic fibrosis 442
Thalassemia, intelligence and behavior 740
Thoracic outlet syndrome, in infancy 462

Throat culture
And penicillin, in rheumatic fever control (Letter) 842
In diagnosis of streptococcal respiratory infection 573
Thymic dysplasia, and vaccine-associated poliomyelitis 923
Thyroid scans, use and dose 802
Tocopherol therapy, in acanthocytosis (Letter) 669
Toe tourniquet syndrome 145
Tofranil (imipramine), ECG in fatal intoxication 777
Toilet training, parent expectations 451
Tonsillectomy, in infectious mononucleosis (Letter) 338
Tormenting children (Historical Note) 572
Toxemia, maternal, relation to fetal malnutrition and motor behavior of newborn 871
Transpulmonary airway pressure, positive (Commentary) 175
Transpulmonary pressure, continuous positive, in hyaline membrane disease 296
Trauma, rehabilitation after head injury (Letter) 845
Trichlorocarbanilide (TCC), hazard of laundry products in newborn nursery (Committee Statement) 988
Triglycerides, concentration and composition in human fetal tissue 540
Trivalent oral polio vaccine, disappointing results (Letter) 494
Tumors, producing ectopic hormone syndromes, and adrenals (Letter) 329
Tyrosinemia and tyrosyluria, with mental retardation 393

Uganda, polio vaccination (Letter) 667
Ultrasound, to measure blood pressure by Doppler technique 788
Umbilical vein catheterization, risk of infection 359
Urea nitrogen, serum, elevation in hypothyroidism 829
Uremia, in Letterer-Siwe's disease (Letter) 491
Urinary infection and allergy (Letter) 166, 994
Urine lead excretion, in screening for lead poisoning 464
Urography, excretory, in vesicoureteral reflux 782
USA and Great Britain, health services (Letter) 669

Vaccination, smallpox, complication (acne) 815
Vaccine-associated poliomyelitis, in child with thymic abnormality 923
Valine, in branched chain ketoaciduria of 19-year-old female 795
Varicella infection, complication of arthritis 827
Veins, percutaneous cannulation without "cut-down" 896
Ventricular tachycardia, procaineamide in treatment 110
Vesicoureteral reflux, prognosis 782
Viremia, absence in sudden infant death syndrome 79
Virus
Herpes simplex, in herpangina and pleurodynia 305
Parainfluenza 73
Respiratory syncytial, response to immunization 745
Vital statistics
1970 979
Mortality reporting, leukemia (Letter) 846
Vitamin A, use and abuse (Committee Statement) 655
Vitamin K supplementation in formulas (Committee Statement) 483

Weaning infants (Historical Note) 922
Wounds, streptococcal infection 458

Xenon, radioactive, clearance and pathology in microvascular circulation study of lymphangiomas 36
Xylose excretion test, in normals and in children with tropical sprue 59
XYY infants, growth and development 583
